

## **NONGAI SAFARIS**

### **Suggestions on what to bring on your African Hunting Safari**

- Neutral colour hunting clothing or camouflage.( x3 sets should be enough)
- Casual camp wear
- Raincoat
- Hunting hat or cap
- Sunglasses
- Comfortable hunting boots
- Warm jacket or sweater
- Toiletries
- Personal medication
- Odourless sunscreen with a minimum SPF of 20
- Binoculars
- Camera and camcorders, remember to bring enough film and recharge equipment
- Rifles and ammunitions, or bow and arrows
- Rifles can be rented from outfitter on request

### **Suggested Hunting Rifles and Calibres**

For plains game hunting any rifle in the .30 calibre range fitted with a scope should be adequate for all hunting conditions.

If you intend to hunt dangerous game a minimum calibre of .375 is required by law.

The maximum allowed rounds of ammunitions per calibre in the country are 200.

The most important thing is for you to be comfortable with your rifle and to spend some time at the shooting range before the hunting safari.

Upon your arrival at the lodge the Professional Hunter will take you to the shooting range for assistance in sighting of the rifles and scopes.

**Nongai Safaris**
